

# VACANCY

## **Quality Inspector**

Established for over 50 years HV Wooding Limited is a highly successful manufacturing business providing a sub-contract component and assembly service to Industry. Our core competencies are Presswork, Busbar manufacture, CNC Wire Erosion and CNC Machining. Working with industry leaders in the electrification of motor vehicles and battery storage.

Owing to continued growth and expansion we currently have a position for a Quality Inspector. This will be an active role "on the shop floor" focused on ensuring products are manufactured to the correct quality standards. As the Quality Inspector you are responsible for ensuring that components produced are of the best quality and correct to customer specifications. You must be prepared to move around the company's three quality areas to build up an all-round knowledge of QC procedures for this position.

This role requires someone who enjoys working with people together with strong influencing skills. You will need to be self-motivated with a friendly and flexible approach. Previous experience of working in a quality environment with the ability to read engineering drawings and the use of measuring equipment would be an advantage.

In return we offer you the opportunity to develop a good career within our company with competitive rates of pay, death in service benefit after 12 months, company contributory pension scheme and free parking. We are a highly focused family run business with a friendly, supportive, and approachable management team. Where appropriate a relocation package will be considered.

Please see a full job description below.

If you would like to apply please send your CV to [jgrimes@hvwooding.co.uk](mailto:jgrimes@hvwooding.co.uk).
